CURATOR OF THE BOTANIC GARDEN, J. Stratton.

The course of lectures on Physic consists of fifty (twenty on general and thirty on special Pathology), delivered during the Lent and Easter terms.

The course on Human Anatomy consists of seventy, delivered during the Michaelmas and Lent terms, by Dr. Humphry.

The course on Chemistry consists of fifty, delivered during the Lent and Easter terms.

The course on Botany consists of twenty, delivered during the Easter term.

The Downing Professor delivers a course of fifty lectures on some subject connected with the study of medicine in the Michaelmas and Lent terms.

The Professor of Anatomy delivers a course of twenty-five lectures on Comparative Anatomy during the Michaelmas term:

Dr. Humphry delivers a course of lectures on Surgical Pathology.

Pupils have an opportunity of dissecting in private.

There is a rich and interesting Anatomical Museum open to medical students daily.

Students are admitted to the medical and surgical practice of the hospital on the payment of 10*l.* 10*s.* for a year, and an additional 5*l.* 5*s.* for an unlimited period.

Medical students are required to reside in Cambridge nine terms (nearly three years), during the first half of which time they are generally occupied in the study of Classics, Mathematics, &c., in their respective Colleges; then, having passed the previous Examination in these subjects, analogous to the preliminary examination required at the University of London, they can pursue the study of Medicine, attend the practice of the Hospital, and the Professor's lectures above specified. This done, they may continue their medical studies in Cambridge, or elsewhere.

If it be thought desirable, the student may continue his classical and mathematical reading for a longer period than the above arrangement contemplates; and may, in due time, present himself for the second Examination in those subjects whereby he becomes B.A.; but this is optional.

PROCEEDINGS IN PHYSIC. M.B.

The candidate for M.B. must have resided nine terms (nearly three years), have passed the previous Examination in Classics, Mathematics, &c., and have been engaged five years in medical study. (Four years are sufficient for those who have graduated as B.A.) Six terms, or nearly two years, must be spent in medical study in the University.

There are two Examinations for M.B. The first after three years of medical study. The subjects are Chemistry, Botany, Elements of Comparative Anatomy, Human Anatomy and Physiology, Materia Medica and Pharmacy, Pathology, Portions of Celsus, Hippocrates, and Aretæus, which have been selected in the year preceding the Examination.

The student, before admission to this first Examination, must produce certificates of attendance on lectures on Chemistry, including manipulations, Botany, Elements of Comparative Anatomy, Human Anatomy and Physiology, Pathology, Materia Medica and Pharmacy, of dissection during one season and of attendance on Hospital Practice.

The second Examination is after the completion of the course of medical study. The subjects are Pathology and practice of Physic, Clinical Medicine, Medical Jurisprudence, the medical treatment of Surgical and Obstetrical Diseases. The student, before admission to this second Examination, must produce certificates of attendance on lectures on Clinical Medicine, Clinical Surgery, Medical Jurisprudence, and Obstetrical Medical, and of attendance on Hospital Practice for three years.

After the Examinations have been passed, an Act must be kept. The candidate reads a thesis composed in English by himself on some subject approved by the Professor. He is then questioned in English by the Professor on the subject of the thesis, and on other subjects in the faculty of a more general nature.

M.D.

The candidate can be admitted to the degree of M.D. in the ninth term (nearly three years) after taking the degree of M.B. A Master of Arts may be admitted to the degree of M.D. at the prescribed period, when he has produced the same certificates and passed the same Examinations as are required for the degree of M.B.

An Act has to be kept similar to that required for M.B.

UNIVERSITY TERMS AND RESIDENCE.

Full term is understood to commence on the first day of the week after the first congregation is held; so that if the congregation be held on the Monday, the Sunday after is considered the first day of full term. For the degree of M.D., the degree of Bachelor in Medicine is required, after undergoing the same three Examinations that are appointed for Bachelor of Arts. No one can be examined for the degree of Bachelor of Arts before the twelfth term* from the date of his matriculation. By those who have not taken any degree in Arts, Michaelmas and Hilary Terms are each

* The sons and the eldest sons of the eldest sons of English, Scotch, and Irish peers and peeresses in their own right, as well as baronets and the eldest sons of baronets and knights when matriculated as such, and not on the foundation of any College, are allowed to offer themselves as candidates for the degree of B.A. after having completed two years.

kept by six weeks' residence, and Easter and Trinity Terms by three weeks'. Twelve terms of residence are required for the degree of B.A. At the expiration of twenty-eight terms from matriculation, and twelve terms from the third examination for the degree of B.A., the candidate may become a B.M., and at the end of three years more he may obtain the degree of D.M.

EXERCISES FOR DEGREES.

1st. To perform the Exercise called Responsions, which are fixed to take place in Hilary Term, on the Monday after the 4th Sunday in Lent, and in Trinity Term, on the Thursday after the first Sunday after Trinity, and in Michaelmas Term on Dec. 5. This exercise consists in an examination in the Greek and Latin languages (chiefly with a view to their grammatical construction), in the rudiments of logic, or in Euclid's Elements of Geometry, and in Arithmetic.

2nd. To pass an examination under Moderations. These examinations take place twice in each year, viz., commencing on Friday after Ascension Day, and on November 20.

3rd. To be Publicly Examined. Public Examinations are held twice a year, viz., in Michaelmas Term, beginning on the second day of November, and in Easter Term, beginning on the Friday which follows the second Sunday after Easter. The examination comprises—1st. The rudiments of religion; 2nd. The Literæ Humaniores; 3rd. The elements of the mathematical sciences, and of physics; 4th. Natural science; 5th. Law and Modern History. The candidate is permitted his choice of these different schools, but he must pass in two at least. In medicine, all students (besides undergoing the three same examinations appointed for Bachelors of Arts) are to be examined by the Regius Professor of that faculty and two examiners of the degree of M.D., appointed by the Vice-Chancellor, in the theory and practice of medicine, anatomy, physiology, and pathology; in materia medica, and in chemistry and botany, so far as they illustrate the science of medicine, and in two at least of the following ancient medical writers—Hippocrates, Arctæus, Galen, and Celsus. For a Doctor's degree in medicine, a dissertation upon some subject, to be approved of by the Regius Professor of Medicine, is to be publicly recited in the schools, and a copy of it afterwards delivered to the professor.

The examination for the Bachelor's degree in medicine takes place once a year, viz., in Trinity or Act Term. The examiners are the Regius Professor of Medicine, and two other graduates in that faculty. Degrees are conferred, generally, once in every fortnight during term, according to an announcement of the several days made by the Vice-Chancellor at the commencement of every term.

UNIVERSITY OF DURHAM.

The course of study for a Licence in Medicine extends over four years, one of which must be spent in the University, and the other three, either in the University, or in some School of Medicine in connexion with the University.

The Newcastle-on-Tyne College of Medicine is in connexion with the University. The three years' course in that College is the same as that required by the Royal College of Surgeons of England, and the Apothecaries' Society of London, with the addition of six months' Clinical Medical Lectures, and six months' Lectures on Practice of Physic.

At the end of his first year's residence in the University, the student passes an examination in the rudiments of religion, literature, and science.

At the end of the fourth year, a student who has passed the first examination and produced satisfactory testimonials of conduct, and certificates of having attended the requisite medical lectures and hospital practice, is admissible to the examination for a Licence in Medicine.

The examination is conducted by three or more Examiners nominated annually by the Warden, and approved by the Convocation of the University.

This examination is directed to the Medical sciences, and continues for four days. On the first and second days, written answers are required to four printed papers on Anatomy, Physiology, Chemistry, Botany, Materia Medica, Medical Jurisprudence, Midwifery, Surgery, Practice of Physic, and Pathological Anatomy. On the third day, practical examinations take place, on Anatomy and in Surgery, in the dissecting-room; on Chemistry, in the laboratory; and on cases of Medical and Surgical Disease in the Hospital. The fourth day is devoted to a *viva voce* examination on Surgical and Medical Science, at the discretion of the Examiners.

The written and *viva voce* examinations take place in the University of Durham, the practical trials in the College of Medicine at Newcastle, and in the Infirmary at Newcastle, containing 230 beds.

The Licentiate, at the expiration of twenty-one terms, or seven years from his matriculation at Durham, may proceed to the degree of M.B.; and at the end of thirty-three terms, or eleven years, to the degree of M.D., on writing an Essay and passing an examination upon some appointed Medical subject.

The Medical Schools of King's College, London, and Queen's College, Birmingham, are also recognised as Medical Schools, at which students in Medicine of the University may pursue their medical studies.

— For particulars relative to the Newcastle-on-Tyne School of Medicine in connexion with this University,—see “Provincial Schools of Medicine.”

PROVINCIAL SCHOOLS OF MEDICINE.

BIRMINGHAM.—QUEEN'S COLLEGE.

Surgical Anatomy: Prof. S. Cox.

Descriptive Anatomy: Prof. F. Jordan.

Practical Anatomy and Superintendence of Dissections: Prof. Jordan and Dr. Walker.

Chemistry: Dr. Bond.

Principles and Practice of Medicine: Prof. Wade.

Principles and Practice of Surgery: Prof. S. Cox.

Comparative Anatomy and Zoology: Dr. R. C. R. Jordan.

Materia Medica and Therapeutics: Dr. A. Fleming.

Midwifery and the Diseases of Women and Children: Prof. S. Berry.

Botany and Vegetable Physiology: Prof. Knowles.

Practical Chemistry: Dr. Bond.

Medical Tutor: Dr. Walker.

Histology, Supplementary to the Course of Physiology: Dr. Waller.

Clinical Lectures: Clinical Lectures will be delivered by the Professors.

Museums, Library, and Chemical Laboratories are connected with the College, to which students have free access.

College Expenses. The College expenses, including commons, chamber rent and servant's wages, but exclusive of College Fees, do not exceed 50*l.* for the Three terms.

Fees for Lectures, &c., in the different faculties, average from 20*l.* to 30*l.* per annum.

The Courses of Lectures and Hospital Practice in the Medical Faculty required by all the Examining Boards may be compounded for by a payment of 75*l.* 10*s.* in one sum.

The expenses of the five years' Medical course, viz.: two years in the Junior department and three years in the Senior department, with attendance on the Surgical, Medical, and Midwifery practice, Dispensing at the Hospital, and on the requisite courses of Lectures, may be covered by a payment of 76*l.* annually, inclusive of commons, rooms, servants, coals, &c.

Chemical Laboratory.—There is a Laboratory in the College, fitted up with every convenience for the attainment of Practical Chemistry, and for the prosecution of Scientific researches. Students wishing to work at Practical Chemistry may do so in the Laboratory of the Professor of Chemistry. Fee, one month, 3*l.* 3*s.*; three months, 7*l.* 7*s.*; nine months, 18*l.* 18*s.*

PRIZES.

The Warneford Scholarships.—Four Scholarships have been founded by the Rev. Dr. Warneford, of 10*l.* each, to be held for two years; to be conferred upon Students who have resided in the Medical Department of the College at least twelve months, and who have otherwise distinguished themselves by good conduct and regularity of attendance upon the Lectures.

The Warneford Gold Medals.—The interest of 1000*l.* is applied for the institution of two Prizes, either in equal or unequal amounts. The Essays written for these Prizes are to be of a religious as well as a scientific nature.

The Webster Prize.—Books of the value of Five Guineas are offered by the late Joseph Webster, Esq., for the Student who may pass the best Examination in the French Language. Three Candidates must compete for this Prize, or it will not be given.

The Percy Prize.—Books of the value of Five Guineas are offered by John Percy, M.D., to the Student who may pass the best Examination in three German Works. There must be not less than two competitors.

The Ratcliff Prize.—Books of the value of Ten Guineas are offered by Charles Ratcliff, Esq., for the best Essay on a subject, to be chosen by the Professors, in Medicine or Surgery. There must be not less than two competitors.

Prizes are annually given on a Public Examination for regularity of attendance at Lectures, Examinations, and at Chapel, good conduct during three years, and who shall be recommended to the Council by the Professors for general excellence in the College Examinations.

HOSPITAL PRACTICE.—QUEEN'S HOSPITAL, BATH-ROW.

Lying-in Department.—Under the superintendence of Professor Berry. Besides the ordinary advantages derived from the Hospital, a Midwifery Department has been added for the benefit of

Poor Lying-in Married Women, who, on the production of an Out-patient's note, are attended at their own homes.

Fees for admission to the Medical, Surgical, and Midwifery Practice : six months, 6*l.* : one year 10*l.* ; three years, 21*l.*

The offices of Physicians' Clerks, and Surgeons' Dressers, are also open to the students without any additional fee.

For further information in reference to the Medical Departments, and College Regulations, apply to the Dean of the Faculty, or to Dr. Bond, Hon. Sec. to Professor at the College.

Forensic Medicine : Mr. W. C. Oxford.

Med. Tutor : Mr. C. J. Bracey.

Classics and Mathematics : The Rev. G. Voight.

French : M. F. Irlande.

The students have the use of a Reading-room, where all the standard Medical and Surgical Journals are provided. They have also free access to the Museums of Anatomy, Physiology, and Pathology, as well as those of Chemistry and Materia Medica. The Diagrams, Models, and Plates, illustrative of the various courses of lectures, may be used by them, under certain rules, with which they will be made acquainted.

In addition to the obstetric preparations in the Museum, the collection belonging to the Lying-in Hospital will be made accessible to the students under suitable regulations.

The Dissecting Rooms are open from eight in the morning until eight at night, and the pupils have the benefit of a constant superintendence in their dissections.

Clinical Courses will be given by those lecturers who are attached to the various public institutions of the town. The lectures are so arranged that no interference with attendance upon hospital practice will be caused by them. Prizes will be awarded in each course, under fixed regulations; and a prize will also be given for general proficiency.

For the benefit of the students, examinations will be held by the lecturers to test their qualifications for matriculation at the University of London.

Some of the lecturers will receive students into their houses; and parents or guardians are requested to communicate with the Principal before placing students at lodgings.

Composition fee for all the lectures required by the College and Hall.

BIRMINGHAM GENERAL HOSPITAL, SUMMER-LANE,

Established 1772, contains 240 beds. Upwards of 20,000 Patients received Medical and Surgical relief during last year.

It affords opportunities for the practical study of Medicine and Surgery equal to any similar Institution in the kingdom, and from the nature of the manufactories by which it is surrounded, and proximity of the mining districts, some of the most important accidents are constantly being admitted.

Clinical Prizes will be given by Dr. Fletcher and Mr. Alfred Baker, for faithful reports of cases under treatment in the Hospital.

Fees for Medical and Surgical Pupils : *Medical Practice*, six months, 7*l.* 7*s.*; twelve months, 10*l.* 10*s.*; eighteen months, 12*l.* 12*s.*; three years, 21*l.* *Surgical Practice*, six months, 8*l.* 8*s.*; twelve months, 10*l.* 10*s.*; eighteen months, 15*l.* 15*s.*; three years, 21*l.*

The Fees for Dresserships may be ascertained by inquiry at the Hospital.

Further particulars may be obtained by application to the Principal, Dr. Bell Fletcher, Waterloo-street; the Treasurer, Dr. Russell, Newhall-street, who is authorized to enter Students; or to the Hon. Secretaries, Mr. Bassett, St. Paul's-square, and Mr. F. Jones, 42, Newhall-street.

BRISTOL MEDICAL SCHOOL.

Descriptive and Surgical Anatomy: Messrs. R. W. Coe and C. Leonard, Monday, Tuesday, Thursday, and Saturday, at a quarter-past ten a.m. Sessional course, 5*l.* 5*s.*; unlimited, 9*l.* 9*s.*

SUMMER SESSION.

Botany and Vegetable Physiology: Mr. T. E. Clark, daily, Monday, Tuesday, Thursday, and Friday, at three p.m. Sessional course, 3*l.* 3*s.*; unlimited, 5*l.* 5*s.*

Materia Medica and Therapeutics: Dr. G. F. Burder, daily, except Saturday, at eight a.m. Sessional course, 4*l.* 4*s.*; unlimited 6*l.* 6*s.*

Midwifery: Dr. J. G. Swayne, daily, except Saturday, at nine a.m. Sessional course, 4*l.* 4*s.*; perpetual, 6*l.* 6*s.*

Forensic Medicine: Mr. W. M. Clarke; and *Chemical Toxicology*, Mr. W. Herapath, Monday, Tuesday, Thursday, and Friday, at nine a.m. Sessional course, 3*l.* 3*s.*; unlimited, 5*l.* 5*s.*

Practical Chemistry: Mr. Herapath, daily, except Saturday. Sessional course, 3*l.* 3*s.*

Fee for the perpetual attendance on all the above courses, excepting practical chemistry, 47*l.* 5*s.*

The courses of lectures upon the practice of Medicine and upon Surgery will be illustrated by preparations from the Museum, as well as by numerous morbid specimens and cases from the practice of the Bristol Royal Infirmary.

The lectures upon General Anatomy and Physiology will be accompanied by numerous Microscopic Demonstrations, and further elucidated by an extensive series of diagrams and specimens from Human and Comparative Anatomy.

The students attending the course of Descriptive Anatomy will have every facility for devoting themselves to Practical Anatomy in the dissecting-rooms, under the superintendence of the Demonstrators.

The Chemical Lectures are illustrated by experiments, and by a very large collection of specimens, both organic and inorganic.

The Midwifery course will be illustrated by a valuable series of specimens from the Museum; and the pupils attending it, when properly qualified, will be amply supplied with cases.

The collection of *Materia Medica*, to which students attending this course have free access, is good and complete.

The students of the Botanical Class attend the lecturer on herborizing excursions. Vegetable Physiology is made a prominent part of the course, and diagrams, as well as a very beautiful series of microscopical preparations of vegetable tissue, are used in illustration of the subject.

Students from a distance can be provided with Board and Lodging, under the recommendation of the Faculty of the School.

The Honorary Secretary and the Registrar will attend at the School at stated times, of which notice will be duly given, for issuing and for registering tickets.

MEDICAL AND SURGICAL HOSPITAL PRACTICE.

The Medical and Surgical Hospital Practice of the Bristol Royal Infirmary, and of the Bristol General Hospital, is in conformity with the Rules and Regulations of the various Examining Boards, and the hours of attendance and of Clinical Lectures are so arranged as to suit those of the Medical School.

BRISTOL ROYAL INFIRMARY.—The Infirmary contains 242 Beds. The number of In-patients averages per annum, 2600, the number of Out-patients, 18,500. The Fees are as follows:—Surgeon's Pupil, for one year, 12 guineas; for two years (at one payment), 20 guineas; for three years (at one payment), 26 guineas. HOSPITAL PRACTICE

At the Royal Infirmary, where Clinical Lectures on Medicine and Surgery are regularly delivered by the Physicians and Surgeons of the Institution.

Scholarships.—Three Scholarships for Perpetual Pupils will be offered for competition during the Session:—One of 20*l.* for third year's Students; one of 15*l.* for second year's Students; one of 10*l.* for first year's Students.

Prizes and Certificates of Honour are annually awarded for general proficiency.

Diplomas and Degrees.—The Lectures qualify for Examination at the Royal College of Surgeons and Apothecaries' Society; and the Students of this School are admitted to Degrees in Medicine, and for the Honours, Exhibitions, and Scholarships conferred by the University of London.

Connected with this School are Museums of Human and Comparative Anatomy and *Materia Medica*, a Chemical Laboratory, a Library, and a Medical Society.

The Winter Session commences on the 1st of October, and terminates at the end of March. The Summer Session begins on the 1st of May, and terminates at the end of July.

Perpetual Fee to the whole of the Lectures required to qualify for Examination at the London University, the Royal College of Surgeons, and the Society of Apothecaries, Forty Guineas.

The Register of Tickets for the Winter Courses is open from October 1st to October 15th, 1859, and for the Summer Courses, from May 1st to May 15th, 1860.

Further particulars may be obtained from the Registrar, Mr. Southam, or from any of the Lecturers.

Midwifery and the Diseases of Women and Children: Drs. S. M. Frost, W. Dawson, and C. Gibson, daily, at eight a.m. Cases are supplied by the Lecturers.

Operative Surgery: Dr. G. Y. Heath.

Military Surgery: Sir John Fife.

Practical Chemistry: Dr. T. Richardson and Mr. E. J. J. Browell, daily, at ten a.m. till five p.m.

Pathological Anatomy: Dr. S. Fenwick and Dr. C. J. Gibb, Wednesday, at four.

Medical Tutor: Mr. W. Murray.

Fees for Lecturers.—Perpetual fee for all the Lectures qualifying for the Licence in Medicine of the University of Durham, the Diploma of the College of Surgeons, and the Licence of the Apothecaries' Society, payable on entering to the first Winter Session, is Forty-four Guineas.

The Courses of Lectures delivered in this College are open to all Students, whether they intend to Matriculate at the University of Durham, or the University of London, or pass the Examinations of the Royal College of Surgeons, or the Society of Apothecaries.

Students of this College who matriculate at the University of Durham are enabled to proceed in the first place to a Licence in Medicine, and then to the Degrees of Bachelor and Doctor of Medicine.

The course required is as follows: One year's residence in the University of Durham, and attendance on lectures similar to those given to Students in Arts in their first year. At the end of this year all Students in Medicine are required to pass an examination in the Rudiments of Religion, Literature, and Science.

Students of Medicine who have passed their first examination must afterwards pursue their studies for three years in the College of Medicine at Newcastle, and then, preparatory to obtaining a licence in Medicine, pass at Durham and Newcastle the final examination, which will be directed to the Medical Sciences.

Licentiates in Medicine may proceed to the Degrees of Bachelor and Doctor of Medicine, by performing such exercises as the Warden and Senate of the University shall appoint. Such Licentiates being of the standing of twenty-one terms from the date of Matriculation for the Degree of Bachelor, and of thirty-three terms for the Degree of Doctor of Medicine.

HOSPITAL PRACTICE.

THE NEWCASTLE INFIRMARY contains 230 beds. Clinical lectures are regularly delivered. According to the last report, 1639 in-patients, 1398 out-patients, and 8739 casual patients were attended at this Institution.

Medical and Surgical Practice.—Twelve months, seven guineas; six months, five guineas; three months, four guineas; perpetual, seventeen guineas. An extensive Library is open to the students attending the Infirmary.

Clinical Clerkships.—There are two resident and two non-resident Clinical Clerks, selected by the Medical Board from among the most meritorious of the Students, to hold office for six months, and to be re-eligible at the expiration of that time. The Resident Clerks pay 10*l.* 10*s.* for their Board.

Dresserships.—The four Dresserships are at the disposal of the Surgeons of the Infirmary, and are gratuitous.

The Museum of the College will be open daily, for the use of students. *Curator*, Mr. W. Murray.

Medical Scholarships in the University of Durham. The following grace was passed in convocation of the University, June 17th, 1856; "Four Scholarships of 25*l.* a-year each shall be

founded, tenable each for four years by students pursuing their medical studies in the University or at Newcastle, and not of sufficient standing to proceed to a Licence in Medicine."

University Exhibitions.—Three Annual Exhibitions of 4*l.*, 6*l.*, and 10*l.*, are given by the University for first, second, and third year Students.

The Book of Registration will be closed on the 21st of October and on the 14th of May.

Further particulars may be learned from any of the lecturers, and tickets obtained from the Registrar.

To facilitate reference to this List, the following explanation is necessary:—

1. The COUNTIES are arranged *alphabetically*; as are also the UNIONS under each County.

2. Each *paragraph* contains the particulars of *one union*. The name of the Union is given in *small capitals*, and the name of each district in *italics*. The letter P. is placed before the *Population*, and the letter A. before the *Area* in *Acres*. Then follows the name of the Medical Officer, with the amount of his salary.

3. To a few of the Unions an asterisk * has been prefixed, to signify that the Clerks of such Unions have not replied to the inquiries forwarded to them. For the correctness of the entries so marked, the Editors do not hold themselves responsible.

4. In those cases where the amounts of extras have been given, it may, *as a rule*, be inferred that both medical fees and vaccination charges have been included.

I. Act of the Town Council.

Edinburgh, 8th August, 1854.

The Magistrates and Council having considered the judgment recently pronounced by the House of Lords, in the Processes of Suspension and Interdict and of Declarator, at the instance of the Senatus Academicus, together with the Statutes of the University relative to the degree of M.D., sanctioned by the Magistrates and Council on 27th October, 1846, and the Regulations as to Lecturers whose Courses of Lectures are to qualify for the degree of M.D., approved of on 26th January, 1847, the operation of which Statutes and Regulations was suspended by reason of the said Process of Suspension and Interdict; further considering that in consequence of such suspension the Magistrates and Council, on 7th September, 1847, revived and re-enacted the Statutes of 13th November, 1833 (and which were rescinded by the aforesaid Act of 27th October, 1846), as interim Rules and Regulations until such time as other or further Regulations should be enacted by the Patrons, and that it is proper that the Statutes and Regulations first before mentioned should now receive effect and be acted on; therefore the Magistrates and Council, on report from the College Committee made in pursuance of the remit to them dated 6th June last recalled the interim Rules and Regulations revived and re-enacted as aforesaid, and rescinded the same accordingly; revived and re-enacted the Statutes of the University relative to the degree of M.D., sanctioned by the Magistrates and Council on the 27th October, 1846, and the Regulations as to Lecturers whose courses of Lectures are to qualify for the degree of M.D., approved of on the 26th January, 1847, and directed the Senatus Academicus to abide by, and conform to, the said Statutes and Regulations in every respect.

The Magistrates and Council directed this Act to be extracted without abiding another reading in Council, and that the same, together with the Statutes and Regulations revived and re-enacted as aforesaid, be printed, and copies transmitted to the Senatus Academicus and to the Royal College of Physicians and Surgeons for their information and guidance.

D. M'LAREN, *Lord Provost.*

II. Statutes of the University of Edinburgh, relative to the Degree of M.D., sanctioned on 27th October, 1846.

SECT. I. No one shall be admitted to the examinations for the Degree of Doctor of Medicine who has not been engaged in medical study for four years, during at least six months of each, in the University of Edinburgh, or in some other University where the Degree of M.D. is given; unless in addition to three Medical Sessions so constituted, he has attended, during at least six

winter months, the Medical or Surgical Practice of a General Hospital, which accommodates at least eighty patients, and during the same period a course of practical anatomy.

Sect. II. No one shall be admitted to the examinations for the Degree of Doctor who has not given sufficient evidence,—

1. That he has studied, once at least, each of the following departments of Medical Science, under Professors of Medicine, in this or in some other University, as already defined, viz.:—

During Courses of Six Months: Anatomy, Chemistry, Materia Medica and Pharmacy, Institutes of Medicine or Physiology, Practice of Medicine, Surgery, Midwifery, and the Diseases peculiar to Women and Children, General Pathology; or in schools where there is no such course, a three months' Course of Lectures on Morbid Anatomy, together with a supplemental Course of Practice of Medicine, or Clinical Medicine.

During Courses of Six Months: Practical Anatomy (unless it has been attended in the year of extra-academical study allowed by Sect. I.).

During Courses of Six Months, or two Courses of Three Months: Clinical Medicine, that is, the Treatment of Patients in a Public Hospital, under a Professor of Medicine, by whom Lectures on the Cases are given.

During Courses of at least Three Months: Clinical Surgery, Medical Jurisprudence, Botany, Natural History, including Zoology.

2. That in each year of his Academical Studies in Medicine, he has attended at least two six months' Courses of Lectures, or one of these and two three months' Courses. 3. That, beside the Course of Clinical Medicine already prescribed, he has attended, for at least six months of another year, the Medical or Surgical Practice of a general Hospital, either at Edinburgh or elsewhere, which accommodates not fewer than eighty patients. 4. That he has been engaged, for at least six months, by apprenticeship or otherwise, in compounding and dispensing drugs at the Laboratory of an Hospital, Dispensary, Member of a Surgical College or Faculty, Licentiate of the London or Dublin Society of Apothecaries, or a professional Chemist or Druggist. 5. That he has attended, for at least six months, by apprenticeship or otherwise, the Out-practice of an Hospital, or the Practice of a Dispensary, Physician, Surgeon, or Member of the London or Dublin Society of Apothecaries.

Sect. III. Attendance on the Lectures of Teachers of Medicine in the Hospital Schools of London, or School of the College of Surgeons in Dublin, or of Teachers of Medicine in Edinburgh, recognised as such by the Royal College of Physicians and Surgeons of Edinburgh (in accordance with regulations to be adopted by these Colleges jointly, and approved of by the Patrons of the University), shall, to the extent of one-third of the whole departments required by Section II., Clause 1, to be studied by Candidates, be held equivalent to attendance under Professors in this, or in some other University, as already defined. And such attendance shall be available to Candidates to the extent of one of the four years of study required by Section I., provided it has embraced, in one year, at least two six months' Courses of Lectures, or one of these and two three months' Courses.

Sect. IV. No one shall obtain the Degree of Doctor who has not studied, in the manner already prescribed, for at least one year previous to his graduation, in the University of Edinburgh.

Sect. V. Every Candidate must deliver, before the 31st of March of the year in which he proposes to graduate, to the Dean of the Faculty of Medicine,—1. A declaration, in his own handwriting, that he is twenty-one years of age, or will be so before the day of graduation: and that he will not be then under articles of apprenticeship to any Surgeon or other master. 2. A statement of his Studies, as well in Literature and Philosophy as in Medicine, accompanied with proper Certificates. 3. A Medical Dissertation composed by himself, in Latin or English; to be perused by a Professor, and subject to his approval.

Sect. VI. Before a Candidate be examined in Medicine, the Medical Faculty shall ascertain, by examination, that he possesses a competent knowledge of the Latin Language.

Sect. VII. If the Faculty be satisfied on this point, they shall proceed to examine him, either *viva voce*, or in writing; first, on Anatomy, Chemistry, Botany, Institutes of Medicine, and Natural History, bearing chiefly on Zoology; and, secondly, on Materia Medica, Pathology, Practice of Medicine, Surgery, Midwifery, and Medical Jurisprudence.

Sect. VIII. Students who profess themselves ready to submit to an examination on the first division of these subjects, at the end of the third year of their studies, shall be admitted to it at that time.

Sect. IX. If any one, at these private examinations, be found unqualified for the degree, he must study during another year two of the subjects prescribed in Section II., Clause 1, in this or in some other University, as above defined, before he can be admitted to another examination.

Sect. X. Should he be approved of, he will be allowed, but not required, to print his Thesis; and, if printed, forty copies of it must be delivered before the 25th day of July to the Dean of the Medical Faculty.

Sect. XI. If the Candidate has satisfied the Medical Faculty, the Dean shall lay the proceedings before the Senatus Academicus, by whose authority the Candidate shall be summoned, on the 31st of July, to defend his Thesis, and, finally, if the Senate think fit, he shall be admitted, on the first lawful day of August, to the Degree of Doctor.

Sect. XII. The Senatus Academicus, on the day here appointed, shall assemble at Ten o'clock

A.M., for the purpose of conferring the Degree; and no Candidate, unless a sufficient reason be assigned, shall absent himself, on pain of being refused his Degree for that year.

Sect. XIII. Candidates for Graduation shall be required to produce evidence of their having conformed to those regulations which were in force at the time they commenced their Medical Studies in a University.

III. Regulations as to Lecturers whose Courses of Lectures are to qualify for the Degree of M.D. in the University of Edinburgh, approved of on 26th January, 1847.

1. That no Fellow of the Royal College of Physicians or of the Royal College of Surgeons of Edinburgh, shall be recognised by the College to which he belongs, as a public Lecturer or Teacher of any of the Medical Sciences, until his qualifications shall have been tried in the particular branch which he professes, by examination before a Board appointed by the Royal College of which he is a Member.

2. That in the Case of Lecturers on Chemistry, and on Natural History, who, according to the practice of this School of Medicine, do not require to be Fellows of the Colleges, or to possess a Medical Status, the examination, with a view to recognition, shall be conducted by a joint Board, consisting of an equal number of persons appointed by each of the two Colleges.

3. That the Lecturers who have delivered Courses of Lectures in Edinburgh, which lectures have constituted a part of the course of study required for the Surgical qualifications conferred in this City shall be exempted from the necessity of qualifying in the manner above described, in regard to future Courses on the same subjects. But this regulation shall not be applicable to Lecturers on departments which may in future be added to the course of study for the Degree of M.D.

4. That no Lecturer shall be recognised, who, at the same time, teaches more than one of the prescribed subjects of study, excepting in those cases where Professors in the University are at liberty to teach two branches.

5. That for every ticket of a Lecturer, recognised in the terms of these regulations, to be ultimately presented as evidence of attendance with a view to graduation, there shall be paid a fee of the same amount with that exigible by the Medical Professors in the University.

ROYAL COLLEGE OF PHYSICIANS, EDINBURGH.

PRES., Dr. Alex. Wood. SEC., Dr. Rutherford Haldane.

The members of the College are respectively entitled Fellows, Non-Resident Fellows, and Licentiates.

FELLOWS.—No one can be elected a fellow of the College till he has obtained the degree of doctor of medicine. His petition must be presented at a meeting of the College, after the fees shall have been lodged in the Treasurer's hands; and if a graduate of any University of Great Britain or Ireland, the motion for his admission may be determined by ballot at the first quarterly meeting of the College hereafter—a majority of three-fourths being necessary to carry it in the affirmative.

Graduates of foreign Universities must previously submit to an examination before the examiners of the College, which shall consist—

1. Of a dissertation in English, on some subject in the practice of physic, selected by the examiners, to be written by the candidate in an apartment of the College hall, under the superintendence of the examiners.
2. Of a *viâ voce* examination in English, chiefly on the Symptoms, Nature, and Treatment of Diseases; also on Anatomy, Chemistry, Botany, and Physiology; and
3. The examiners may institute such examination as they may consider advisable for satisfying themselves that the candidate has received a competent education.

NON-RESIDENT FELLOWS.—The mode of election of a non-resident is the same as that of a resident Fellow. In his petition he engages, if he comes to reside in Edinburgh, to fulfil the whole conditions which the College does or may require of resident Fellows; but another ballot must take place before he is admitted to that grade by the College.

The fees for a resident fellowship amount to 130*l.*, and for a non-resident 80*l.*, both inclusive of the stamp duty to government.

LICENTIATES.—Graduates of British Universities are entitled to be admitted licentiates without any previous trial or examination; but all other applicants are required to pass an examination. It is no longer necessary to be a licentiate in order to becoming a Fellow. The fee for a licence is 10*l.* 10*s.*

EXAMINATIONS FOR THE DOUBLE QUALIFICATION of Licentiate in Medicine and Licentiate in Surgery, to be conferred by the Royal College of Physicians of Edinburgh, and the Faculty of Physicians and Surgeons of Glasgow, conjointly. The Royal College of Physicians of Edinburgh, and the Faculty of Physicians and Surgeons of Glasgow, while they still continue to give their Diplomas separately, under separate Regulations, have made arrangements (in terms of the Medical Act) which have been submitted to, and have received the sanction of, the General Medical Council,

whereby, after one Series of Examinations, the student may obtain two licences, one in Medicine and one in Surgery. The object of the joint-examination is to give to students facilities for obtaining from two separate bodies, and at less expense, a double qualification in Medicine and in Surgery, and thus to enable them to hold various important public appointments, for which, if they only possessed a single qualification, they would be ineligible. Students passing these examinations successfully will be enabled to enter their names in the Register as L.R.C.P. Ed., and L.F.P. & S.G. The College and the Faculty have prepared a code of regulations to be observed by Candidates for the double qualification, both as regards general and professional education and examination, which may be had on application at the Hall of the Royal College of Physicians, Edinburgh, or at the Hall of the Faculty of Physicians and Surgeons of Glasgow. The first examination in general education under the Code took place on Thursday, the 3rd of November, 1859. The First Professional Examination took place on 10th November, 1859, at Five P.M. REGULATIONS.

Schools of Medicine.—1. Every candidate for a Surgical Diploma must have followed his course of study in a University; or in an Established School of Medicine, as defined below; or in a Provincial School specially recognised by the College of Surgeons of that division of the United Kingdom in which it is situate.

2. Under the title Established School of Medicine are comprehended the Medical Schools of those cities of Great Britain and Ireland in which Diplomas in Surgery are granted, and such foreign schools as are similarly circumstanced in the countries in which they exist.

Qualifications of Teachers.—1. The following classes of persons shall be entitled to give Lectures which may be attended as part of the course of study:—1st, In the Universities of Great Britain and Ireland, in University and King's Colleges, London, in Queen's College, Birmingham, and in the Queen's Colleges of Cork, Belfast, and Galway, in Ireland,—the Professors of those Institutions. 2nd, In Edinburgh, Resident Fellows of the Royal College of Physicians of Edinburgh, and Fellows of the Royal College of Surgeons of Edinburgh, whose Lectures have been sanctioned in each case by the College to which the Lecturer belongs.* 3rd, In London, Fellows and Licentiates of the Royal College of Physicians of London, and Fellows and Members of the Royal College of Surgeons of England whose status as Teachers has been admitted by those Colleges. 4th, In Dublin, Fellows and Licentiates of King's and Queen's College of Physicians in Ireland, and Fellows of the Royal College of Surgeons in Ireland. 5th, In Glasgow, Fellows of the Faculty of Physicians and Surgeons of Glasgow whose Lectures have been sanctioned by the Faculty.†

2. The College will not recognise any course of lectures delivered subsequently to 1st May, 1839, by a Professor or Teacher who lectures upon more than one of the branches of instruction included in their Curriculum; nor any course delivered by a Professor or Teacher who, in addition to the said course, lectures upon a branch of instruction, medical or general, not included in the Curriculum, unless such Professor or Teacher shall have obtained special leave from the College to do so.

3. Notwithstanding the above regulations, the teaching of two branches may be undertaken by one individual in the following instances without disqualification being incurred,—viz., Anatomy and Practical Anatomy; Chemistry and Practical Chemistry; and, further, Clinical Medicine or Clinical Surgery may be taught simultaneously with any one of the other courses of education pre-

* The College enacted, in 1846, Statutes regarding the manner of sanctioning lecturers and teachers in the Edinburgh School, which is by special examination on their several departments.

† The only lecturers excepted from this law are those on chemistry and botany, who may be persons non-medical, if recognised by the College after examination by a joint board with the College of Physicians, in conformity with statutes enacted in May, 1847, and printed separately.

scribed in the Curriculum, by a Physician or Surgeon qualified according to the regulations of the Colleges, and attached to a public hospital of the size which those regulations prescribe.

COURSE OF STUDY.

1. *Preliminary Instruction.*—Every candidate must satisfy the examiners in preliminary education, that he has a competent knowledge of the following branches of study:—The Grammatical Structure of the English and Latin Languages. Elements of Mathematics, including Arithmetic and Algebra. Natural Philosophy: or, in lieu of this, at the option of the candidate, Logic and Mental Philosophy. After August, 1861, a knowledge of Greek, or, in lieu of Greek, at the option of the candidate, French, German, or Italian, will be required. The College will, from time to time, fix on books as guides for preparation for examination in the preliminary branches; and intending candidates will be furnished with lists of these on application. The following branches, though not enjoined, are recommended for study:—Comparative Anatomy, Natural History, Geology.

2. *Professional Instruction.*—The candidate must have been engaged in attending the following *separate* and *distinct* courses of lectures during at least four Winter and three Summer Sessions:—*

		<i>Duration at least</i>
Anatomy	2 Courses.†	Six months each.
Practical Anatomy		Twelve months.
Chemistry	1 Course	Six months.
Practical Chemistry	1 Do.	Three months.
(The number of Pupils in each Class being limited to 25.)		
Or Analytical Chemistry	1 Do.	Three months.
Materia Medica	1 Do.‡	
Physiology, or Institutes of Medicine	1 Do.	Six months.
Practice of Medicine	1 Do.	Six months.
Clinical Medicine		Six months.¶
Principles and Practice of Surgery	1 Do.	Six months.
Clinical Surgery	1 Do.	Six months.¶
In addition to the above Courses of Surgery and Clinical Surgery, one Course of either of these at the option of the Student. }	1 Do.	Six months.¶
Midwifery and the Diseases of Women and Children	1 Do.	Three months.
Medical Jurisprudence	1 Do.	Three months.
Pathological Anatomy, or General Pathology	1 Do.	Three months§.
Botany	1 Do.	Three months.

Besides the above-mentioned courses of lectures the candidate must have attended at least six cases of Labour under the superintendence of a qualified Medical Practitioner, either in a recognised Maternity hospital, or in a Dispensary where midwifery cases are admitted, or in private practice; and must produce a certificate to that effect from the Practitioner under whom he attended. He must also have attended, for six months, a course of instruction in Practical Pharmacy, at the Laboratory of a Surgeon or Apothecary, or of a Member of the Pharmaceutical Society of Great Britain, or of a Chemist and Druggist recognised by the College on special application, or of a public hospital or dispensary. Those who produce certificates of having been, for the space of at least two years, private pupils or apprentices to regularly licensed medical practitioners keeping laboratories for dispensing medicines, shall be held qualified in this branch of instruction.

3. The candidate must have attended, for twenty-four months, a public general hospital con-

* Those who commenced their professional studies prior to September, 1859, are not required to have attended the lectures for more than four Winter and one Summer Sessions, or three Winter and three Summer Sessions,—making in either case 27 months of attendance on the Lectures.

† The two courses must not be simultaneous.

‡ This course will be accepted for three or for six months, according to the opportunities presented by the school at which the candidate has studied.

|| In those schools of England and Ireland in which two separate courses of lectures are delivered at separate hours, one on Anatomy, the other on Anatomy and Physiology, the former of these courses will be received as one of the two courses of Anatomy required by the Colleges, and the other as the course of Physiology, or Institutes of Medicine.

¶ Two courses of Clinical Medicine of three months each, if not simultaneous, will be held equivalent to one course of six months. They must be attended during the period of attendance at the hospital where they are delivered. The same rules will apply to Clinical Surgery.

§ This course will not be imperative on students who have begun their medical studies before the 1st of October, 1860.

taining at an average eighty patients; and must also have attended, for six months, the Practice of a Public Dispensary specially recognised by the College.

4. A Certificate of Proficiency in Vaccination, signed by a registered Practitioner, will be required of every candidate.

5. The six-months' Courses delivered in Edinburgh or Glasgow must consist of not fewer than one hundred Lectures, with the exception of Clinical Medicine and Clinical Surgery. The three-months' Courses must consist of not fewer than fifty Lectures.

6. The following order of study is recommended as a guide to the Student, though not enjoined:—

First Year . Anatomy,—Practical Anatomy,—Chemistry,—Practical or Analytical Chemistry,—Botany, *the last either in this or the Second Year*.—Hospital.

Second Year . Anatomy,—Physiology, or Institutes of Medicine,—Surgery,—Materia Medica and Pharmacy, *the last either in this or the Third Year*.—Hospital.

Third Year . Practice of Physic,—Clinical Surgery, Practical Anatomy,—Practical Pharmacy,—Hospital.

Fourth Year . Surgery, or Clinical Surgery,—Midwifery and the Diseases of Women and Children,—Clinical Medicine,—Medical Jurisprudence,—Practical Midwifery,—Hospital.

7. It is strongly recommended to students to avail themselves of any opportunities which they may possess of attending Lectures on Ophthalmic and Mental Diseases; also on Natural History, Comparative Anatomy, and the use of the Microscope, in addition to the Courses of Lectures which are absolutely required.

Registration and Certificates.—1. A book shall be kept in the Hall of the College for the Registration, at stated times, of all Medical Students who may apply. In this book all Edinburgh students who desire to possess the Diploma of the College must enter their names and the Classes which they attend, whether under professors in the University, or under other qualified teachers.

2. The Registration shall be conducted by the Conservator of the Museum, or by a substitute for whom he shall be responsible. He shall enter in separate columns—1st, The name of each individual; 2nd, The medical classes, hospitals, and dispensaries attended by each during the current season; 3rd, The names of the teachers. He shall register such only as apply personally to him, shall examine all the tickets produced by each individual, and shall not register any classes for which tickets are not produced.

3. Each student shall pay annually, on his first registration for the year, the sum of five shillings, and shall be provided with a ticket of admission to the Museum.

4. The book shall be closed for the registration of the winter classes on the 30th of November in each year; and of the summer or intermediate classes, at the end of the *second* week from their commencement.

5. When a student is prevented by sickness, or any other unavoidable cause, from complying with the above regulations, he shall, *as soon as the case admits*, present a statement of the circumstances, with proper evidence, to the Conservator, to be laid by him before the Registration Committee, who shall report their opinion to the College; and if the application be sustained, the individual so applying shall be enrolled in the usual manner.

6. The Conservator will attest the registration of the classes of each session by affixing a stamp to the tickets of those classes.

7. Certificates of attendance subscribed by the teachers will also be required from all candidates for surgical diplomas, in regard to that part of their medical education which they may have received at Edinburgh. Similar certificates will be received from any other schools in which registration books are kept, in regard to such portions of the course of study as the certificates may embrace. Candidates educated at schools where no registration-books are kept, must produce certificates from the respective professors or lecturers, both of their having entered to their several classes at an early period of the course, and also of their having attended those classes with due regularity. And in the case of Practical Anatomy, the certificate must express that the Candidate has, during the course of his attendance, been engaged in the dissection of the human body, under the personal superintendence of the professor or teacher.

Preliminary Examination in Literature and Science.—1. The Preliminary Examination in Literature and Science shall take place three times yearly.* This examination may be taken at any period previous to the first professional examination; but it is strongly recommended that it should be taken before the commencement of the professional education.

2. Testimonials of proficiency granted by certain National Educational Bodies, shall be accepted as sufficient evidence of preliminary education, and shall exempt from the preliminary examination. Of these a list will be found in the Appendix, pp. 807-8.

3. The Preliminary Examination shall be conducted by Special Examiners in Arts to be chosen from time to time by the College, associated with Assessors to be sent by the College.

4. Students who intend to undergo the Preliminary Examination, shall give in their names, addresses, and places of birth to the officer of the College, not later than two days before the day of examination, and shall pay a fee of ten shillings, not to be returned in case of rejection.

* For days of examination see Appendix, page 807.

PROFESSIONAL EXAMINATIONS FOR THE DIPLOMA OF THE COLLEGE.

1. Candidates for the Diploma of the College shall be subjected to two professional examinations, to be conducted at separate sittings, partly in writing and partly orally.

2. *First Examination.*—The first Examination shall embrace Anatomy, Physiology, Chemistry, and Botany; the second, Surgery, Medicine, Midwifery, *Materia Medica*, and Medical Jurisprudence.

3. The first Examination shall take place not sooner than twenty-one months from the commencement of the Candidate's attendance on his professional classes.

4. Opportunities for the first examination will be presented six times in each year.* On each of these occasions the Candidates shall assemble to write answers to the questions proposed, and the oral examinations will be conducted on the days immediately succeeding.

5. Candidates who desire to pass the first Professional Examination, must apply to the Inspector of the Course of Study, on or before the Saturday preceding the day of examination,† and must produce registered tickets, and also certificates of attendance in regard to all those Courses of Study which have reference to the subjects of that examination. They must also produce evidence of having passed the Preliminary Examination.

6. The sum of 4*l.* must be paid to the Treasurer of the College for this Examination, not later than Ten A.M. of the day preceding it. This sum will be considered as paid to account of the entire fee of 10*l.* payable for the Diploma.

7. In the case of a Candidate being unsuccessful at this Examination, 2*l.* will be returned to him, the remaining 2*l.* being retained to meet the expense of Examination.

8. *Second Examination.*—The second Examination shall take place six times yearly.*

9. No Candidate shall be admitted to this Examination before the termination of his fourth Winter Session.

10. Applications for Examination must be made to the Inspector of the Students' Course of Study not later than the Saturday previous to the day of the first Examination.†

11. Every Candidate must produce to the Inspector, and afterwards to the Treasurer of the College,—1st, Satisfactory evidence of his having attained the age of twenty-one years; 2nd, The registered tickets and the Certificates of his classes; 3rd, The Certificate of his having passed the first Professional Examination; 4th, A tabular statement (for which a printed form will be furnished by the Officer) exhibiting the full amount of his professional education, and distinguishing the Classes, Hospitals, and Dispensaries attended during each session of his studies. If he have been an Apprentice he must also insert the name of his master, the date of his indenture, and the length of time for which he was bound. This statement, accurately filled up, must be attested by his signature, and will be preserved by the College as a record.

12. If the Candidate have been an Apprentice to a Fellow of the College, he must also produce his discharged indenture.

13. On the production of these documents, the Inspector will give the Candidate a letter authorizing the Examiners to take him on trial.

14. The remaining fee payable to the College (being 6*l.*), together with the receipt for the fee paid for the first Professional Examination, must be lodged not later than Ten A.M. of the day preceding the Examination-day, in the hands of the Treasurer, who will certify this upon the Inspector's letter, after examining and being satisfied with the certificates. The sum of 4*l.* will be returned to unsuccessful Candidates.

15. Unsuccessful Candidates at either the first or second Examination will be remitted to their studies for a period to be determined by the judgment of the Examiners, but not in any case less than three months.

16. Candidates, on showing sufficient reason for it, may be admitted to a Special Examination, on days other than those appointed above, on paying an extra fee of 4*l.*, which will not be returned in the event of their not being successful.

17. In order to test more effectually the practical knowledge of Candidates, Anatomical and Botanical specimens, articles of the *Materia Medica*, Chemical tests, the Microscope and Surgical Apparatus, will be employed during the Examinations; and every Candidate will be required to write out one or more formulæ of prescription. The examination may also consist, in part, of the actual examination of persons labouring under disease.

FEES.—1. *For the Diploma of the College*, 10*l.* 2. *For a Certificate of Qualification to act as Assistant-Surgeon in the Navy*, when no previous Qualification has been received from the College, 5*l.* 3. *For a Certificate to an Assistant-Surgeon of the Royal Navy, of Qualification to act as full Surgeon*, 5*l.*

The sums stated above include all Fees of every kind, and the Officer is prohibited from receiving any.

* For days of Examination, see Appendix, page 807.

† Candidates at a distance are requested to send their certificates much earlier, so as to give sufficient time for the exchange of one or two explanatory letters; as much disappointment has been occasioned by the discovery of defects in their Course of Study when it was too late to rectify them by the production of documents.

Note.—The Fee payable for the Diploma by Apprentices of those who were Fellows of the College prior to the Charter of 1851 is 5*l*.

SPECIAL REGULATIONS TO BE OBSERVED BY LECTURERS IN EDINBURGH.

1. Every Lecturer at this School of Medicine shall ascertain, at least twenty-five times in a six-months' course, and twelve times in a three-months' course, the actual attendance given by his pupils.

2. He shall do this by calling the name of each pupil at least once a-week, and entering in a regular roll-book the presence or absence of each individual; the Students, of course, being kept in ignorance of the particular days on which this is to be done.

3. The said roll-book shall be kept according to a form prescribed by the College; shall also be carefully preserved; and shall be at all times accessible to the Inspector of the Course of Study, and to the Treasurer of the College, on whom it shall be incumbent to examine the roll-book of each Class at least once during every Session, before the termination of the third weeks in April and July respectively.

4. On granting Certificates of attendance on their Classes, the Lecturers shall use the annexed form, filling up the blanks with words at length, and on no account employing figures:—

“Edinburgh,
I hereby certify that Mr. _____ attended my Course of Lectures
_____ commencing on _____ and terminating on _____
_____ ; that the roll of the class was called _____ times during the
Session; and that Mr. _____ was present on _____ of these occasions.”
_____ (“Signed) _____”

5. When a Student's Certificate of attendance bears that he has been more than five times absent in a six months' course, or more than thrice in a three months' course, when the roll of his class was called, the Inspector shall intimate this at the foot of that Student's letter to the Examiners, specifying the branch or branches on which the attendance was defective, in order that he may be particularly examined upon them. But if, on the other hand, a Student's Certificate of attendance bears that he has been absent more than eight times in a six-months' course, or more than four times in a three-months' course, he shall not be admitted to examination until he has attended another Course of Lectures on every such department of Study.

6. When a Student's absence has been occasioned by sickness, or any other unavoidable cause, such cause shall be stated in the Certificate of attendance granted by the Lecturer; and the President and Council of the College shall decide whether the Student shall or shall not be required to attend another course of such Lectures before presenting himself for examination.

7. The above Regulations shall be imperative on every Lecturer at this School of Medicine whose Lectures are recognised by the College; and it is hereby notified, that in the event of its being ascertained that any Lecturer evades the faithful enforcement thereof, the College will not hesitate to withdraw its recognition of his Course of Lectures.

By authority of the Royal College,

JOHN SCOTT, *Secretary.*

APPENDIX NO. II.

Resolutions founded on the Suggestions contained in the Report on Education by the General Medical Council; adopted by the Royal College of Surgeons of Edinburgh in reference to the Education and Examination of Candidates for their Diploma, at a Meeting of the College held on 8th Sept. 1860.

1. That after October 1st, 1861, all Candidates for the Diploma of the College shall pass an examination in General Education *before* they commence their Professional Studies.

2. That Candidates producing testimonials of having passed the Examinations in Arts of any one of the National Educational Bodies, according to the following List (with such additions as may from time to time be made by the Medical Council) shall be exempted from the Preliminary Examinations of this College:—A Degree in Arts of any University of the United Kingdom, or of the Colonies, or of such other Universities as may be specially recognised from time to time by the

Medical Council; Oxford Responsions or Moderations; Cambridge Previous Examinations; Matriculation Examination of the University of London; Oxford Middle Class Examinations, Senior and Junior; Cambridge Middle Class Examinations, Senior and Junior; Durham Middle Class Examinations, Senior and Junior; Durham Examinations for Students in Arts in their Second and First Years; Dublin University Entrance Examination; Queen's University, Ireland, two Years' Arts Course for the Diploma of Licentiate in Arts; Preliminary Examinations at the end of the A.B. Course; Middle Class Examinations; Matriculation Examinations; An Examination by any other University of the United Kingdom, equivalent to the Middle Class Examinations of Oxford and Cambridge; an Examination in Arts by any of the licensing Bodies named in Schedule A of the Medical Act, provided that such Examination shall be in every case conducted by a special Board of Examiners in Arts, and approved by the Medical Council.

3. That after October 1st, 1861, all Medical Students be required to be registered.

4. That the Lists of Students registered after October 1st, 1861, be closed *within fifteen days after the commencement of each Session or Term*; and that all claims for registration sustained by the Registration Committee shall be reported, with the grounds on which they have been sustained, to the Branch Council for Scotland.

5. That no Student beginning professional study after September 1861 be registered, who has not passed the Preliminary Examinations of this College, or any Arts Examination, in conformity with Resolution 2.

6. That this College shall, after October 1st, 1861, adopt the annexed form of Register:—

Bursaries tenable by Medical Students: The Brisbane Bursary, of 50*l.* yearly, is held for four years by a Student of Medicine, who is Master of Arts. The Walton Bursary, of 20*l.* yearly, is held by a Medical Student (a native of England being preferred) for four years. The Armagh Bursaries, three in number, amounting each to 15*l.* yearly, for three years, are open to Students of Divinity and Medicine who have taken the Degree of M.A.

Recognition by Public Boards: Attendance on the Lectures at the University of Glasgow qualifies for examination at all the public Boards. Graduates in Surgery of this University are recognised by the English Poor Law Unions, and by the East India Company, on the same footing as Licentiates of the Royal College of Surgeons of England.

REGULATIONS FOR DEGREES IN MEDICINE AND SURGERY.

I.—DEGREES IN MEDICINE.

1. Every Candidate for a Medical degree must lodge, with the Clerk of the Senate, a certificate of moral character, signed by two respectable persons, with evidence that he has attained the age of Twenty-one years.

2. He must produce evidence of having attended for four years, or four Winter Sessions of six months each, an University in which Medical Degrees are conferred and Medicine is regularly taught, or Medical Lectures delivered, in London or Dublin. He must spend one at least of the four years at the University of Glasgow, and, in each year, he must have attended at least two Courses of Medical Lectures of six months' duration. But if he shall spend only one year or Session at the University of Glasgow, then he must attend not less than three Courses of Lectures delivered there, two of them, at least, being of six months' duration. If of less extent, two Courses shall be held equivalent to one of six months.

3. He must produce Certificates of attendance on all the following Courses of Instruction, each being of six months' duration, with the exceptions mentioned:—Anatomy; Chemistry; Institutes of Medicine; Botany, three months; *Materia Medica* and Pharmacy; Surgery; Practice of Medicine; Midwifery; Forensic Medicine; Anatomical Dissections; Practical Chemistry, three months; Zoology, three months; General Hospital, two years, of not less than nine months each, or eighteen months.

The said Hospital must contain not fewer than eighty beds; Clinical instruction in Medicine and Surgery must be given in it; and the Student must spend, at least, one half of the period of his attendance in the Physicians' Wards.

Hospital attendance, Anatomical Dissections, and Practical Chemistry, shall not be considered as equivalent to the Courses of Lectures referred to in the last clause of Regulation 2.

Courses of Botany delivered during the Summer alone will be recognised.

4. Each Candidate for a Medical Degree must lodge, with the Clerk of Senate, the above certificates, and a Schedule* of his course of study properly filled up, together with an Essay composed by himself, in Latin or English, on some Medical subject of his own selection, on or before the 1st of March or the 10th of June, for the respective following terms of Graduation.

5. No Student shall be entered in any Medical Class later than the 1st of December (excepting those which do not meet till a later period), without the special permission of the Senate. And every Candidate for Graduation shall be strictly required to have his name enrolled in the University Album, on or before that day, and to produce an express Certificate of his regular attendance, by the Professor in each class.

6. The Candidates shall undergo full examination on all the subjects included in the Curriculum. The examination shall be conducted partly in writing. Previous to the professional examination, the Candidate shall give evidence that he possesses a competent knowledge of the Latin language: the examination as to proficiency in the Latin language may, at the option of the Candidate, be in any of the years of study previous to the professional Examination.

The Professional Examination shall be divided into two parts, which shall take place at different meetings; the first comprehending an examination on Anatomy, Chemistry, Institutes of Medicine, Zoology, and Botany; the second on the Principles and Practice of Medicine and Surgery, *Materia Medica* and Pharmacy, Midwifery, and Forensic Medicine. The Candidate may have it in his

* These Schedules will be obtained on application from the Clerk of the Senate, or the Bedellus of the University.

option to undergo the first professional examination at the end of his second Winter Session, or at any of the following examination terms, provided he shall then have attended the necessary Courses of Lectures.

II. DEGREES IN SURGERY.

1. The Regulations respecting Certificates of Age and Moral Character are the same as those under the head of Degrees in Medicine.

2. Candidates for the degree of Master of Surgery, shall produce evidence that they have attended Medical and Surgical Lectures, in one or other of the Universities or schools already specified, for four years or Winter Sessions, in each of which they must have attended two or more of the following Courses of Instruction; the extent of each Course, with the exceptions mentioned, being Six Months, or the equivalent two Courses of a shorter duration. The Candidate must have attended not less than three Courses of Medical Lectures in the University of Glasgow:—Anatomy; Chemistry; Institutes of Medicine; Botany, Three Months; Materia Medica and Pharmacy, Surgery, Practice in Medicine, Midwifery, Forensic Medicine, Anatomical Dissections, Practical Chemistry, Three Months; Zoology, Three Months; a General Hospital Eighteen Months.

The said Hospital must contain not fewer than eighty beds; Clinical Instruction in Medicine and Surgery must be given in it; and the Student must attend one half of the prescribed period in the Surgical, and the other half in the Medical Wards.

3. The Regulations as to lodging Certificates of attendance, Essay, Latin, and Professional Examinations, &c., are the same as under the head of Medical Degrees, with the exception that the Essay is to be on a Surgical subject.

NOTE.—The above Regulations apply to those who shall have commenced their Studies in November, 1859. Candidates for Degrees, who attended the Medical Classes in the University of Glasgow, previously, are admitted to Examination, according to the Regulations which existed at the time when they began to study Medicine.

The days appointed for conferring Degrees in Medicine and Surgery are the last Wednesday of April and the first Wednesday of August.

The University Fee for the Degree of M.D. is £15 3 0

The Government Duty on Stamp for Do. 10 0 0

— £25 3 0

The Fee for the Degree of Chirurgiæ Magister is 10 10 0

The Stamp Duty for the Degree of M.D. and the Fee for the Degree of C.M., are required to be deposited with the Clerk of Senate, by the respective Candidates, not less than ten days previous to the commencement of each Examination term; but in the event of the Candidate not passing his trials, these deposits will be returned.

ARRANGEMENT OF THE CURRICULUM.

Intending Graduates in Medicine and Surgery are requested particularly to observe,

1. That the whole course of study, of four years' duration, required for Graduation either in Medicine or in Surgery, must be attended in one or more of the Medical Schools described in Regulation 2.

2. That those who intend to prosecute the whole of their studies in Glasgow, must study during the whole four years in the University, attending during each year at least Two Courses of Medical Lectures of six months' duration delivered in the University.

3. That those who receive part of their Medical education in any of the authorised Medical schools other than the University of Glasgow, must spend at least one Session of six months' duration at the University of Glasgow, attending during that Session not less than Three Courses of Medical Lectures delivered there, of which two at least must be of six months' duration.

4. In respect to the order of attendance on the Classes prescribed by Regulation 3, it is earnestly recommended, although not absolutely required,

1st.—That Anatomy, Chemistry, Practical Anatomy, Practical Chemistry, Botany, and Zoology, be attended within the first two years, Botany, if possible, in the summer of the first year.

2nd.—That Institutes of Medicine, Surgery, and Materia Medica be attended within the second and third years.

3rd.—That practice of Medicine, Midwifery, and Forensic Medicine be attended within the third and fourth years.

4th.—That Hospital Practice with Clinical Instruction be attended during the second, third, and fourth years.

5th.—That attendance on Anatomy and Chemistry should always precede that on Institutes of Medicine, and that attendance on Anatomy, Chemistry, and Botany should always precede that on Materia Medica, and the other classes which follow.

5. That all Medical Students are further recommended to attend the Lectures on Natural Philosophy, Natural History, Diseases of the Eye, the Lying-in-Hospital, and the Infirmary for Diseases of the Eye, and to embrace all opportunities within their reach of studying General Pathology, Comparative Anatomy, and Mental Diseases.

By Order of the Senate.

REGULATIONS.

Schools of Medicine.—1. Every Candidate for the Diploma of the Faculty must have followed his Course of Study in an Established School of Medicine, as defined below; or in a Provincial School specially recognised by the Faculty or by the Colleges of Physicians and Surgeons of that division of the United Kingdom in which it is situated. 2. Under the title Established School of Medicine are comprehended the Medical Schools of those cities of Great Britain and Ireland in which Diplomas in Medicine or Surgery are granted, and such foreign Schools as are similarly circumstanced in the countries in which they exist. 3. Every Candidate must have passed at least one Winter Session at an Established School of Medicine.

Qualifications of Teachers.—1. The following classes of persons shall be entitled to give Lectures which may be attended as part of the Course of Study:—1st. In the Universities of Great Britain and Ireland, in University and King's Colleges, London, in Queen's College, Birmingham, and in the Queen's Colleges of Cork, Belfast, and Galway,—the Professors of these Institutions. 2nd. In Glasgow, Fellows of the Faculty of Physicians and Surgeons of Glasgow, whose lectures have been sanctioned by the Faculty.* 3rd. In London, Fellows and Licentiates of the Royal College of Physicians of London, and Fellows and Members of the Royal College of Surgeons of England, whose status as Teachers has been admitted by those Colleges. 4th. In Dublin, Fellows and Licentiates of King's and Queen's College of Physicians in Ireland, and Fellows of the Royal College of Surgeons of Ireland. 5th. In Edinburgh, Fellows of the Royal College of Physicians of Edinburgh, and Fellows of the Royal College of Surgeons of Edinburgh, whose lectures have been sanctioned in each case by the College to which the Lecturer belongs. 6th. Lecturers in Provincial Schools, specially recognised by the Faculty or by the Colleges of Physicians or Surgeons of that division of the United Kingdom where they are situated. 2. A fellow proposing to deliver any Course of Lectures for which he desires the sanction of the Faculty must, at least one month before its commencement, make application to that effect by letter to the President, to be laid before the Faculty. And such sanction and recognition of his status as a Teacher shall be given by the Faculty only after being fully satisfied that the applicant is in all respects competent to conduct the proposed course of instruction efficiently; and that he possesses all the apparatus and conveniences requisite for so doing. This regulation shall apply to similar applications made by Gentlemen who are not Fellows of the Faculty. 3. The Faculty shall not sanction or recognise any Course of Lectures delivered by a Professor or Teacher who lectures upon more than one of the branches of instruction included in their Curriculum; nor any Course delivered by a Professor or Teacher who, in addition to the said Course, lectures upon a branch of instruction, medical or general, not included in the Curriculum, unless such Professor or Teacher shall have obtained special leave to do so. 4. Notwithstanding the above regulation, the teaching of two branches may be undertaken by one individual, in the following instances, without disqualification being incurred—viz., Anatomy and Practical Anatomy; Chemistry and Practical Chemistry; and, further, Clinical Medicine or Clinical Surgery may be taught simultaneously with any one of the other courses of education prescribed in the Curriculum, by a Physician or Surgeon qualified according to the Regulations of the Faculty, and attached to a Public Hospital of the size which these Regulations prescribe.

COURSE OF STUDY.

Preliminary Instruction.—1. Every Candidate for the Diploma of the Faculty must satisfy the Examiners in Arts, that he has a competent knowledge of the following branches of Study:†—The Grammatical Structure of the English and Latin Languages; Elements of Mathematics, including Arithmetic and Algebra; Natural Philosophy, or, in lieu of this, at the option of the Candidate, Logic and Mental Philosophy; (After August 1861,) a Knowledge of Greek, or, in lieu of Greek, at the option of the Candidate, French, German, or Italian.

Professional Instruction.—2. The Candidate must have been engaged in attending the following courses of Lectures during at least four Winter and three Summer Sessions, and must have

* The Faculty may nevertheless extend the privilege of Lecturing to others besides Fellows, in the event of their possessing no medical or surgical Qualifications.

† The Faculty will, from time to time, fix on Books as guides for preparation for Examination in the preliminary branches; and intending Candidates will be furnished with lists of these on application.

attended not less than two Courses in each Winter Session. Anatomy, 2 courses, six months each;* Practical Anatomy, 2 courses, twelve months; Chemistry, 1 course, six months; Practical or Analytical Chemistry, 1 course, three months; Materia Medica, 1 course;† Physiology, or Institutes of Medicine, 1 course, six months;‡ Practice of Medicine, 1 course, six months; Clinical Medicine, 1 course, six months;§ Principles and Practice of Surgery, 1 course, six months; Clinical Surgery, 1 course, six months.¶ In addition to the above Courses of Surgery and Clinical Surgery, one course of either of the following at the option of the student:—Midwifery and the Diseases of Women and Children, 1 course, three months; Medical Jurisprudence, 1 course, three months; Pathological Anatomy or General Pathology, 1 course, three months;|| Botany, 1 course, three months. 3. The six-months' Courses delivered in *Edinburgh or Glasgow* must consist of not fewer than 100 lectures, with the exception of Clinical Medicine and Clinical Surgery. The three-months' Courses must consist of not fewer than 50 lectures. Two courses of three months each, on one branch of instruction, if not attended simultaneously, shall be received as one six-months' Course on the same branch. 4. Besides the above-mentioned Courses of Lectures, the candidate must have attended at least Six cases of LABOUR under the superintendence of a qualified Medical Practitioner, either in a recognised Maternity Hospital, or a Dispensary where Midwifery cases are admitted, or in private practice; and must produce a certificate to that effect from the Practitioner under whom he attended. He must also have attended, for six months, a course of instruction in PRACTICAL PHARMACY, at the Laboratory of a Public Hospital or Dispensary, or of a Surgeon or Apothecary, or of a Member of the Pharmaceutical Society of Great Britain, or of a Chemist and Druggist recognised by the Faculty on special application. 5. The candidate must also have attended, for twenty-four months, a Public General Hospital containing on an average eighty patients; or, he must have attended such an Hospital for twenty-one months, and have also attended, for six months, the Practice of a Public Dispensary specially recognised by the Faculty or by one of the Royal Colleges.¶ 6. It is strongly recommended to Students to avail themselves of any opportunities which they may possess of attending Lectures on Ophthalmic and Mental Diseases; also on Natural History, Comparative Anatomy, and the use of the Microscope, in addition to the Courses of Lectures which are absolutely required. Students are further recommended to attend the three-months' Courses in the Summer Sessions, when practicable.

REGISTRATION AND CERTIFICATES.

1. A Book shall be kept in the Hall of the Faculty, for the Registration, at stated times, of all Medical Students who may apply. In this book all Glasgow Students who desire to possess the Diploma of the Faculty, shall enter their names and the Classes which they attend. 2. The Registration shall be conducted by the Registrar of the Faculty, or by a substitute for whom he shall be responsible. He shall enter in separate columns—1st. The name of each individual; 2nd. The Medical Classes, Hospitals, and Dispensaries attended by each during the current session; 3rd. The names of the Teachers. He shall register such only as apply personally to him, shall examine all the tickets produced by each individual, and shall not register any classes for which tickets are not produced. 3. The Registrar shall attest the registration of the Classes of each session by affixing a stamp to the tickets of those classes. 4. The Book shall be closed for the registration of the Winter Classes on the 30th of November in each year; and of the Summer or intermediate Classes, at the end of the *second* week from their commencement. 5. When a Student is prevented by sickness, or any other unavoidable cause, from complying with the above regulations, he shall, *as soon as the case admits*, present a statement of the circumstances, with proper evidence, to the Registrar, to be laid by him before the Council of the Faculty, who shall report their opinion to the Faculty; and if the application be sustained, the individual so applying shall be enrolled in the usual manner. 6. Candidates educated at schools where no registration-books are kept, must produce Certificates from the respective Professors or Lecturers, both of their having entered to their several Classes at an early period of the Course, and also of their having attended those classes with due regularity. And in the case of Practical Anatomy, the Certificate must express that the Candidate has, during the course of his attendance, been engaged in the Dissection of the human body, under the personal superintendence of the Professor or Teacher.

* The two Courses must not be simultaneous.

† This Course will be accepted for three or for six months, according to the opportunities presented by the school at which the candidate has studied.

‡ In the case of candidates educated at those schools of England and Ireland in which two separate courses of lectures are delivered at separate hours, one on Anatomy, the other on Anatomy and Physiology, the former of these courses will be received as one of the two Courses of Anatomy required by the Faculty, and the other as the Course of Physiology, or Institutes of Medicine.

§ These Courses must be attended during the period of attendance at the hospital where they are delivered.

|| This Course is not imperative on Students who may have begun their medical studies before the 1st of October, 1860.

¶ The Glasgow Eye Infirmary and the Dispensary of the Glasgow Royal Infirmary are recognised by the Faculty as Public Dispensaries.

EXAMINATIONS.

Preliminary Examination in Literature and Science.—1. The Preliminary Examination in Literature and Science shall take place on the first and second Saturdays of May, and on the first, second, and third Saturdays of December in each year. This Examination may be taken at any period previous to the first professional examination; but it is strongly recommended that it should be taken before the commencement of the professional education. 2. Testimonials of proficiency granted by the National Educational Bodies, according to the following list, shall be accepted as sufficient evidence of preliminary education, and shall exempt from all other non-professional examinations:—A Degree in Arts of any University of the United Kingdom, of the Colonies, or of such other Universities as may be specially recognised from time to time by the Medical Council; Oxford Responsions or Moderations; Cambridge Previous Examinations; Matriculation Examination of the University of London; Oxford Middle Class Examination, Senior and Junior; Cambridge Middle Class Examination, Senior and Junior; Durham Middle Class Senior Examination; Dublin University Entrance Examination; an Examination by any other University of the United Kingdom, equivalent to the Middle Class Examinations of Oxford and Cambridge; a Certificate that the Holder has successfully passed the Preliminary Examination of any of the Licensing Bodies under the Medical Act, provided the course of education and the subjects of examination be equivalent to those required for the Diploma of the Faculty. 3. The Preliminary Examination shall be conducted by Special Examiners in Arts, to be chosen from time to time by the Faculty, associated with Assessors to be sent by the Faculty. 4. Students who intend to offer themselves for the Preliminary Examination, shall give in their names, addresses, and places of birth to the Registrar not later than three days before the day of examination, and shall pay a fee of ten shillings, not to be returned in case of rejection.

Professional Examinations.—1. Candidates for the Diploma of the Faculty shall be subjected to two Professional Examinations, to be conducted partly in writing and partly orally. 2. The first Examination shall embrace Anatomy, Physiology, Chemistry, and Botany; the second, Materia Medica, Medical Jurisprudence, Midwifery, Surgery, and Medicine. 3. In order to test more effectually the practical knowledge of Candidates, Anatomical and Botanical specimens, articles of the Materia Medica, Chemical tests, the Microscope, and Surgical Apparatus, will be employed during the examinations; and every Candidate will be required to write out one or more formulæ of prescription. The second Examination may also consist in part of the actual examination of persons labouring under disease. 4. Opportunities for the first Examination will be presented four times in each year,—viz., on the first Tuesday of February, May, August, and November, and for the second examination, on the second Tuesday of each month. 5. Candidates shall not be admitted to the FIRST EXAMINATION till after the termination of their second Winter Session; nor to the SECOND, till after the termination of their fourth Winter Session. 6. Before being admitted to the first professional Examination, the Candidate shall produce to the Registrar registered tickets and also certificates of attendance in regard to all those Courses of Study which have reference to the subject of that examination. He shall also produce evidence of having passed the Preliminary Examination. 7. Before being admitted to the second examination the Candidate shall produce to the Registrar—1st. Satisfactory evidence of his having attained the age of twenty-one years; 2nd. The registered tickets and the certificates of his classes; 3rd. A schedule (for which a printed form will be furnished by the Registrar) exhibiting the full amount of his professional education, and distinguishing the Classes, Hospitals, and Dispensaries attended during each session of his studies; and, 4th. The certificate of his having passed the first professional examination. The schedule above referred to shall be attested by his signature, and shall be preserved by the Faculty as a record. 8. Applications for examination shall in every case be made to the Registrar of the Faculty not later than the Saturday previous to the day of examination. 9. The fees payable—4*l.* for the first, and 6*l.* for the second examination—shall be lodged with the Registrar, not later than ten a.m. of the day preceding the examination-day. These sums shall be considered as paid to account of the entire fee of 10*l.* payable for the Diploma. 10. In the event of a Candidate being unsuccessful at either the first or second examination, he shall be remitted to his studies, for a period to be determined by the judgment of the Examiners, but not in any case less than three months. His name shall be concealed, and the fee returned less the sum of 2*l.*, which shall be retained to meet the expense of the examination.

Examinations for the Double Qualification of Licentiate in Medicine and Licentiate in Surgery, conferred by the Royal College of Physicians, Edinburgh, and the Faculty of Physicians and Surgeons, Glasgow. See p. 802.

SPECIAL REGULATIONS.

11. A Candidate for the Diploma of the Faculty, who may have commenced his professional studies before October, 1860, shall have it in his option to undergo one examination only, embracing the whole subjects of the curriculum; for which opportunities will be afforded on the second Tuesday of each month. 12. A Candidate, on showing sufficient reason for it, may be admitted to a special Examination, on days other than those appointed above, on paying an extra fee of 4*l.* which shall not be returned in the event of his being unsuccessful. 13. A Candidate for the Diploma of the Faculty, who may have been in practice under another qualification, for five

years previous to appearing before the examining Board of the Faculty, shall be exempted from examination in the preliminary and elementary branches of the curriculum. 14. A Member or Licentiate of any of the Royal Colleges of Surgeons of Great Britain and Ireland, upon the production of his Diploma or License, together with satisfactory evidence of his moral character, and a recommendation by twelve qualified Medical Practitioners to whom he is well known shall be admitted *ad eundem* Licentiate of the Faculty upon payment of the ordinary fee for the Diploma (10*l*.) 15. An Assistant Surgeon in the Navy, on examination for a certificate of qualification to act as full Surgeon, shall pay a fee of 3*l*.

The various Courses delivered at this University qualify for examination here, and at the Universities of Oxford, Cambridge, London, Dublin, Queen's University, Ireland, St. Andrews, Glasgow, and Edinburgh; the Royal Colleges of Surgeons of England, Edinburgh, and Ireland; the Apothecaries' Hall, London; and the Medical Boards of the Army and Navy.

HOSPITAL PRACTICE.

Hospital Practice daily, at ten o'clock, at the Royal Infirmary, which contains upwards of 280 beds.

Phys.: Drs. Dyce, Kilgour, Nicol, and Williamson. *Surgs.*: Messrs. Keith, Pirrie, and Kerr.

Ophthalmic Surgeon: Dr. Cadenhead.

Lectures on Clinical Medicine: Dr. Kilgour; 1st course, 2*l*. 2*s*., 2nd, 1*l*. 1*s*.

Lectures on Clinical Surgery: Mr. Keith; 1st course, 2*l*. 2*s*., 2nd, 1*l*. 1*s*.

Lectures on Ophthalmic Surgery: Dr. Cadenhead; 1st course, 2*l*. 2*s*., 2nd, 1*l*. 1*s*.

Fee to the Hospital, 3*l*. 10*s*.; Perpetual ditto, 6*l*.; Fee to the Clinical Lectures—First Year, 2*l*. 2*s*.; each subsequent Course, 1*l*. 1*s*.; or in one payment, perpetual, 4*l*. 4*s*. The Lunatic Asylum, under the care of Dr. Macrobis, *Cons. Phys.*, and Dr. R. Jamieson, *Res. Phys.*, contains about 280 Patients. A limited number of Pupils is permitted to witness the Practice pursued in this Asylum, in the treatment of Mental Disease. A Course of Clinical Instruction in the treatment of Insanity is given during the Summer Session by Dr. Jamieson, the Medical Superintendent. Fee, 2*l*. 2*s*.

Besides the University Library, there is, in the Hall of the Medico-Chirurgical Society of Aberdeen, a Medical Library, containing 4,000 volumes, with a Reading-Room attached. Admission to the Society by ballot. Terms for Students, 1*l*. 1*s*. yearly.

The *Aberdeen General Dispensary*, Vaccine, and Lying-in Institution, is open to Students, on application to the Medical Officers. There are annually about 5,000 patients, either prescribed for in the Institution, or visited at their own houses.

REGULATIONS FOR GRANTING MEDICAL DEGREES.

Curriculum.

1.—Four years of attendance on Medical Classes, of which two years may be passed at a Medical School recognised by this University, but two must be passed in a University, and one of them, at least, in this University. The attendance, in each year, must embrace not fewer than two courses of not less than one hundred Lectures each; or one such course, with two courses of not less than fifty Lectures each, with the exception of the Clinical Courses, in which Lectures are to be given at least twice a week during the prescribed periods. But in the case of a Graduate in Arts, it will be held equivalent to one of these four years, that he has attended one Medical Class while passing through the Curriculum of Arts. The University attendance must include the following Classes, each for at least one course of not less than one hundred lectures:—Anatomy, Chemistry, Materia Medica, Institutes of Medicine, Practice of Medicine, Surgery, Medical Logic and Medical Jurisprudence, and Midwifery, with Practical Midwifery at an Hospital for three months, or attendance on six cases elsewhere; and the following Classes for, at least, one course of not less than fifty Lectures:—Botany and Practical Chemistry.

Practical Anatomy also must be attended for not less than six months, and every candidate must produce a certificate that he has dissected all the parts of the human body at least once.

2.—Two years of attendance on the Medical and Surgical Practice of an Hospital containing not fewer than eighty beds, and which possesses a distinct staff of Physicians and Surgeons; along with attendance for six months on Lectures on Clinical Medicine, and for six months on Lectures on Clinical Surgery.

3.—Attendance for at least six months, by Apprenticeship or otherwise, on the Practice of a Physician, Surgeon, or Member of the Apothecaries' Company of London, or of Dublin, or on the out-practice of an Hospital, or the practice of a Dispensary.

4.—Three months of Compounding and Dispensing Medicines in the Laboratory of an Hospital, or of a Public Dispensary, or of a Licensed General Practitioner, or of a regular Dispensing Druggist.

Examinations.

There shall be two Examination terms in each year, viz., in April and October.

(1.) Preliminary Examination.

All Candidates, not possessed of a Degree in Arts, obtained on Examination, shall undergo an Examination on the following subjects:—The English Language, Latin (from prescribed authors), the Elements of Mathematics, and the Elements of Mechanics.* In addition to the above, Candidates, before being admitted to the First Professional Examination, shall also be examined upon any two of the following subjects, at their option, viz.—Greek, German, French, Zoology, Higher Mathematics, Natural Philosophy, Logic, Moral Philosophy.

It will be held equivalent to the foregoing examination for the Candidate to have attended the first two sessions in the Curriculum of Arts in this University, and passed the Entrance Examinations, provided he also undergo an examination in Mechanics, and in one of the above optional branches, exclusive of Greek, on which he has previously been examined.

(2.) Professional Examinations.

Candidates shall undergo *Three* Professional Examinations, which shall be conducted both by written questions and *viva voce*, as follows:—

The *First* Examination not to be taken before the end of the Second Year of Study, and to include Botany, Chemistry, and Materia Medica.

The *Second* Examination not to be taken before the end of the Third Year, and to include Anatomy, Institutes of Medicine or Physiology, and Surgery.

The *Third* Examination not to be taken before the end of the Fourth Year, and to include Practice of Medicine, Midwifery, and Medical Jurisprudence and Medical Logic.†

The Examinations on these subjects shall include Demonstrations and Medical and Surgical Cases.

It is recommended that Candidates should not take more than one Examination at each term; but Candidates will be allowed, if they choose, to appear for their first and second Professional Examinations at the end of the third year of their Medical Studies, or the three Professional Examinations at the end of the fourth year.‡

* It is considered by this and the other Universities of Scotland to be highly desirable that at least this part of the non-Professional Examination should be undergone before the Student enters upon his Medical studies at this or any other Medical School.

† If Logic be taken as a part of the Preliminary Examination, the Candidate shall be exempted from examination on Medical Logic.

‡ Candidates for the Degree of Master of Surgery, in addition to the preceding Examinations, shall be subjected to a Special Examination on the higher departments of Anatomy and Surgery.

CONFERRING OF DEGREES.

The Degrees of Bachelor of Medicine (M.B.) and of Master of Surgery (C.M.) may be conferred on any Candidate who has passed the prescribed Examinations, and is of the age of twenty-one years.

The Degree of Doctor of Medicine (M.D.) may be conferred on any Candidate who has obtained the Degree of M.B., and is of the age of twenty-four, having been engaged, subsequently to his having received the Degree of M.B., for two years in Medical and Surgical Practice, or in either of the Public Services, or in attendance on a Hospital. The Medical Faculty shall have the power to require an Examination for this Degree, if they see cause, and to decline recommending the Candidate to the Senatus, should the result of the Examination not prove satisfactory.

Further information may be obtained by application to Dr. Macrobin, Professor of Medicine, and Promoter of Medical Degrees.

UNIVERSITY OF ST. ANDREWS.

REGULATIONS OF THE SENATUS ACADEMICUS RESPECTING THE
EDUCATION OF CANDIDATES FOR THE DEGREE OF DOCTOR OF MEDICINE.

I. Every Candidate for a Diploma in Medicine, upon presenting himself for Examination, shall produce satisfactory evidence—

1. Of unexceptional moral character.
2. Of having had a liberal and classical education.
3. Of having completed the twenty-second year of his age.

II. Fellows, Members, and Licentiates of the Royal Colleges of Surgeons of England, Edinburgh, and Dublin—of the Royal College of Physicians of London—of the Faculty of Physicians and Surgeons of Glasgow—and of the London Apothecaries' Company—are eligible as Candidates for the Degree of Doctor of Medicine, on producing their Diploma or Licence.

N.B.—Notice to Students.—New regulations (copies of which may be obtained from the Secretary) have been published for Students commencing their attendance on Medical Classes in or after October, 1860.

III. Candidates not holding any of the qualifications enumerated in the above clause, must produce satisfactory proof that they have regularly attended Lectures delivered by Professors in some University, or by Fellows of the Royal Colleges of Physicians or Surgeons of London, Edinburgh, or Dublin, for four complete Winter Sessions, or for three Winter and three Summer Sessions, on the following branches:—

1. Anatomy, 2 courses of six months each; 2. Practical Anatomy or Dissections, twelve months;
3. Physiology, 1 course of six months; 4. Chemistry, 1 course of six months; 5. Practical Chemistry, 1 course of three months; 6. Botany, 1 course of three months; 7. Natural History or Comparative Anatomy, 1 course of three months; 8. Materia Medica and Pharmacy, 1 course of three months; 9. Midwifery and Diseases of Women and Children, 1 course of three months;
10. Medical Jurisprudence, 1 course of three months; 11. Surgery, 1 course of six months;
12. Clinical Surgery, 1 course of six months; 13. Practice of Medicine, 1 course of six months;
14. Clinical Medicine, 1 course of six months; and that they have diligently attended for at least two entire years the Medical Practice in some Public Hospital in Great Britain or Ireland, containing not less than one hundred beds, and having a regular Establishment of Physicians as well as Surgeons.

REGULATIONS RESPECTING THE EXAMINATIONS.

Exam. for Degrees in Med., George E. Day, M.D., F.R.S., Professor of Anatomy and Medicine; Arthur Connell, F.R.S.S.L. and E., Professor of Chemistry (assisted by M. Foster Heddle, M.D.); William Pyper, LL.D., Professor of Latin; *Asst.-Exams. in Therap. and Pract. of Med.*, William T. Gairdner, M.D., F.R.C.P., Lecturer on the Practice of Medicine, and on Clinical Medicine, Edinburgh; Alexander Wood, M.D., Assistant-Surgeon to the Royal Infirmary, Edinburgh; *in Surgery*, George Buchanan, M.D., Surgeon to the Royal Infirmary, Glasgow; John Struthers, M.D., Assistant-Surgeon to the Royal Infirmary, Edinburgh; *in Midwifery and the Diseases of Women and Children*, Andrew Anderson, M.D., Professor of Medicine in the Andersonian University, Glasgow; J. Matthews Duncan, M.D., Lecturer on Midwifery, Edinburgh.

The Examinations take place three times in the year, viz. in May, September, and December. The graduation fee is Twenty-five Guineas. In the event of a Candidate being found unqualified, he shall forfeit one-third of the graduation fee; which, however, will be accounted for to him when he passes his examination at a subsequent trial.

The examination by printed papers extends over three days, after which each Candidate is submitted to an oral examination.

All Candidates are required to give a written translation of a passage from the first four Books

of Celsus, to write Prescriptions in Latin with accuracy, and to be so far acquainted with Greek as to be able to give the meanings of Scientific and Medical terms derived from that language.

During the first three days of the examination, the Candidates answer printed questions on (1) Chemistry and *Materia Medica*; (2) Anatomy and Physiology; (3) The Practice of Medicine; (4) The Principles of Surgery; and (5) Midwifery and the Diseases of Women and Children. They are likewise required to write a short Commentary on a Medical, on a Surgical, and on a Midwifery case.

The Degree is conferred, at the conclusion of the oral examinations, by the Rector, in the Hall of the Public Library of the University, and the Diplomas are signed by the Professors of the University.

Every Candidate is required to present himself for Registration to the Secretary, on or before the Saturday preceding the May and September Examinations, and on or before the day preceding the December Examination, and to communicate by Letter with the Professor of Medicine, at least a fortnight previously, stating what Diploma or Certificates he intends to produce.

JAMES M'BEAN, A.M., *Sec.*

As the Examiners receive very frequent applications respecting the course of reading to be pursued, they beg to recommend the following works as especially deserving of perusal:—

Fownes's Manual of Chemistry. (Candidates who have been long engaged in practice are expected to possess, at least, a knowledge of the general principles of the Science, and an acquaintance with the ordinary Chemical Compounds used in Medicine.)

Christison's Dispensary or Pereira's *Materia Medica* (especially the sections treating of the mode of action, uses, and administration of Medicines), and the London, Edinburgh, or Dublin Pharmacopœia.

Gray's Anatomy, Quain's Elements of Anatomy, or Wilson's Anatomist's Vade-Mecum.

Carpenter's Principles of Human Physiology, or Kirkes's Handbook of Physiology.

Williams's Principles of Medicine, and Watson's Lectures on the Principles and Practice of Physic, or Wood's Treatise on the Practice of Medicine (American).

Miller's Principles and Practice of Surgery, or Fergusson's System of Practical Surgery.

Churchill on the Theory and Practice of Midwifery, or Ramsbotham's Principles and Practice of Obstetric Medicine.

Candidates who have acquitted themselves creditably in the written Examination are allowed to compete for Honours.

Candidates for Honours are additionally examined in Comparative Anatomy and Physiology, in the higher departments of Human Physiology and Pathology, and in Medical Jurisprudence; and their practical knowledge of Medicine is tested at the bedside.

SCHOOLS OF MEDICINE IN SCOTLAND.

ANDERSON'S UNIVERSITY, GEORGE STREET, GLASGOW.

WINTER SESSION, 1860-61.

Commencing on the first Tuesday of November.

Chemistry, at ten a.m.: Dr. Penny.

Practical Chemistry, at eleven a.m.: Dr. Penny.

Midwifery and Diseases of Women and Children, at ten a.m.: Dr. Paterson.

Institutes of Medicine, at twelve noon: Dr. E. Watson.

Anatomy, at five, p.m.; *Anatomical Demonstrations*, at one p.m.; *Practical Anatomy*, daily: Dr. G. Buchanan.

Surgery, at two p.m.: Dr. G. B. H. Macleod.

Practice of Medicine, at three p.m.: Dr. A. Anderson.

Materia Medica, Pharmacy, and Dietetics, at four p.m.: Dr. Morton.

Medical Jurisprudence, in summer: Dr. Cowan.

Botany, in summer: Dr. Bell.

Royal Infirmary Visit, at half-past eight a.m.; *Clinical Lectures*, at nine a.m.

Fee, for each Class, First Session, 2l. 2s.: Second Session, 1l. 1s.: Fee for both Classes of Anatomy, 4l. 4s.: Perpetual, in advance, 8l. 8s. The Fees admitting to all Classes required for Surgical Diploma amount to 30l.

Courses of Botany, Anatomy, Practical Chemistry, Medical Jurisprudence, and Midwifery, are delivered in summer.

Natural Philosophy: Dr. Taylor.

Mathematics: Mr. Laing.

The Extensive Laboratory of the Institution, fitted up expressly for instruction in Practical and Analytical Chemistry, is Open Daily, from eleven till three o'clock. Fee, 1l. 1s. per Month. No charge for Apparatus and Materials in the Course of Practical Medical Chemistry, the fee for which is 2l. 2s.

The Materia Medica Museum contains a valuable Collection of Plates and Specimens, to which additions are constantly being made.

The Dissecting Room is free to those attending both of the Courses of Anatomy during the first and second sessions, and attached to it there is a Reading Room and Museum for the use of the Anatomical Students. To those who join only one class of Anatomy the Fee for the Dissecting Room is 1l. 1s. After the second year the fee is 1l. 1s. per session. The room was opened for Practical Anatomy in October.

Students attending the Medical Classes have the opportunity of witnessing the practice of the following Hospitals—viz., Lying-in Hospital, 1l. 1s. for six months; Eye Infirmary, 2l. 2s. for six months; Royal Infirmary, 530 beds, 10l. 10s. perpetual, including Medical and Surgical Clinical Lectures, which are delivered four times weekly. The Patients admitted to the Eye Infirmary average 1,600 annually; those admitted to the Royal Infirmary, 4,000; besides 10,000 Out-patients, treated at the Dispensary. Average number of Surgical Operations, 200 annually.

Gentlemen attending the Botany Class have Free Admission to the Botanic Garden.

The University Museum, a splendid collection of Specimens of Natural History, including more particularly those of Zoology, Geology, Mineralogy, and Antiquities, is open to all Students attending the University.—A valuable Medical Library is also attached to the Medical School.

Certificates of Attendance on the above Courses are received by the Universities of Oxford, Cambridge, London, Aberdeen, and St. Andrews—by the Royal College of Physicians, Edinburgh—by the Royal Colleges of Surgeons in Great Britain and Ireland—by the Faculty of Physicians and Surgeons of Glasgow, and by the Army, Navy, and East India Boards, and the Apothecaries' Halls.

A Syllabus of the Lectures and other particulars may be had by applying at the University, George-street, or to

ANDREW ANDERSON, M.D., 2, Woodside-crescent.

SURGEONS' HALL, EDINBURGH.

WINTER SESSION, 1860-61.

The following Courses of Lectures on Medical and Surgical Science, and also those delivered in the University, qualify for Examination for the Diploma of the Royal College of Surgeons. All the Courses are for six months, if not otherwise specified. Classes open on Tuesday, November 6th.

Materia Medica and Dietetics, at nine a.m.: Dr. Douglas MacLagan.

Surgery, at ten a.m.: Mr. Spence.

Surgery (4, High School Yards), at ten a.m.: Dr. P. H. Watson.

Surgery (5, High School Yards), at ten a.m.: Mr. A. M. Edwards.

Chemistry, at ten a.m.: Dr. Stevenson Macadam.

Analytical Chemistry, at nine a.m. till four p.m.: Dr. Stevenson Macadam.

Practical Chemistry (Three Months' Course), at nine a.m. till four p.m.: Dr. Stevenson Macadam.

Physiology, at eleven a.m.: Dr. Sanders.

Medical Jurisprudence (Course commences on December 1st), at two p.m.: Dr. Littlejohn.

Clinical Medicine (Royal Infirmary), at one p.m.: Drs. Keiller (Diseases of Women), W. T. Gairdner, and Warburton Begbie.

Clinical Surgery (Royal Infirmary), at twelve noon: Mr. Spence.

Anatomy, at two p.m.: Dr. John Struthers.

Anatomical Demonstrations, at four p.m.: Dr. John Struthers.

Practical Anatomy, at nine a.m. till four p.m.: Dr. John Struthers.

General Pathology, at four p.m.: Dr. Rutherford Haldane.

Pathological Anatomy (Saturdays), at eleven a.m.: Dr. Rutherford Haldane.

Practice of Physic, at three p.m.: Dr. W. T. Gairdner.

Practice of Physic (4, High School Yards), at three p.m.: Dr. Warburton Begbie.

By Order of the Royal College, JOHN SCOTT, Secretary

Diseases of Children, at two p.m.: Dr. Keiller.

Natural Philosophy (Three Months' Course, commencing on February), at one p.m.: W. Lees, A.M.

Practical Instruction.—ROYAL INFIRMARY, twelve till two p.m., Perpetual Ticket, at one payment, 10*l.*; Annual, 5*l.* 5*s.*; Half-yearly, 3*l.* 3*s.*; Separate payments for two years and a half entitle the Student to a Perpetual Ticket. SICK CHILDREN'S HOSPITAL, Ticket, Three Months, 1*l.* 1*s.*; Perpetual, 2*l.* 2*s.* DISPENSARY VISIT—Royal Public Dispensary, and New Town Dispensary, each, Six Months, 3*l.* 3*s.* PRACTICAL MIDWIFERY—Royal Maternity Hospital, Royal Public Dispensary, New Town Dispensary, Ticket, 1*l.* 3*s.* DISEASES OF THE EYE—Eye Dispensary, and Eye Infirmary. DISEASES OF THE EAR—Dispensary, Lawnmarket. DISEASES OF THE TEETH—Dispensary, Drummond-st. PRACTICAL PHARMACY—Royal Public Dispensary, New Town Dispensary, Six Months, 3*l.* 3*s.*

Fees.—For the First of each of the above Courses, 3*l.* 5*s.*; for the Second, 2*l.* 4*s.*; Perpetual, 5*l.* 5*s.* To those who have already attended a First Course in Edinburgh the Perpetual Fee for that Class is 2*l.* 4*s.* The Fees for the following Courses are—Natural Philosophy, 2*l.* 2*s.*; Practical Chemistry and Practical Anatomy, 3*l.* 3*s.*; Anatomical Demonstrations, 2*l.* 2*s.*; Practical Anatomy with Demonstrations, 4*l.* 4*s.*; Analytical Chemistry, 2*l.* a month, or 10*l.* for the Winter Session.

During the SUMMER SESSION, 1861, the following Three Months' Courses will be delivered:—

Midwifery: Dr. Keiller.

Midwifery (4, High School Yards): Dr. J. Matthews Duncan.

Medical Jurisprudence: Dr. Littlejohn.

Clinical Surgery: Mr. Spence.

Clinical Medicine: Drs. Keiller, W. T. Gairdner, and Warburton Begbie.

Botany: Mr. Bayldon.

Practical and Analytical Chemistry: Dr. Stevenson Macadam.

Practical and Comparative Anatomy, and Diseases of the Eye: Dr. John Struthers.

Pathological Anatomy: Dr. Rutherford Haldane.

Natural Philosophy: W. Lees, A.M.

Histology: Dr. Sanders.

Insanity: Dr. Skae.

History of Medicine: Dr. Warburton Begbie.

Dental Surgery: Dr. John Smith.

Venereal Diseases: Dr. P. H. Watson.

Surgical Appliances: Mr. Edwards.

The above Courses qualify for Examination at the Royal Colleges of Physicians and Surgeons of Edinburgh; the Royal College of Surgeons, and the Apothecaries' Society, London; the Royal Colleges of Physicians and Surgeons of Dublin; the Faculty of Physicians and Surgeons of Glasgow; the Boards of the Army, Navy, and Indian Medical Service; and also, so far as required, for the Universities of London, Oxford, Cambridge, St. Andrews, Aberdeen, and the Queen's University in Ireland.

In accordance with the Statutes of the UNIVERSITY OF EDINBURGH, one-third of the entire Medical Classes required for Graduation may be attended under any of the above Teachers; and one of the four years of Study required for the University Degree may be constituted by attendance, in one year, on two of the above Six Months' Courses, or on one of these and two Three Months' Courses. The Regulations require that, in this case, the Fee for any of the above Classes shall be the same as that for the corresponding class in the University. When Surgery and Clinical Surgery are taught, as at present, by the same Lecturer, they do not qualify for Graduation at the University of Edinburgh, but for every other Public Board.

JOHN STRUTHERS,
Secretary to the Medical and Surgical School.
